Object:

The object of the game is... to do what Barbie Says in order to collect cool fashion accessories.

Set Up:

- Insert 3 "AAA" batteries into the Barbie Says game unit. (See illustration on next page)
- Remove the lid on the Barbie Says game unit.
- Place the Barbie Says game unit where everyone can reach it.
- Slide the Barbie Says Off/On switch to the "On" position.

Let's Play:

When you turn on the Barbie Says game unit, Barbie will say "Let's play Barbie Says," "Press green for level one," "Press purple for level two," " Press yellow for Friendship game".

After you choose which game you want to play, Barbie will ask how many players will be playing. You will hear Barbie say, "Press green for one player", "Press purple for two players", "Press yellow for three players", "Press blue for four players".

In Level One, Barbie will call out colors for you to press, in Level Two and the Friendship game, Barbie will call out colors and icons. But remember, only press the buttons when Barbie says. Each time a player does what Barbie says, Barbie will call out a cool fashion accessory for the player to collect.

Level One- Easy

In this game Barbie will call out colors in sequence and it's up to you listen closely. When Barbie finishes the sequence press the buttons. Example: "Player One, Barbie Says, press green, then yellow then blue, Player One ". Remember to only press the buttons when Barbie Says. The player sitting in front of the yellow button is Player One and play continues in a clockwise direction from

there. Because this is the Easy level, Barbie will always: 1.) Take turns in order, 2.) Tell you that it is your turn before and after her instructions, 3.) Refer to buttons only by color.

Winning the Game

The first player to collect a certain amount of fashion accessories is the winner.

4 Player Game- First to collect 5

3 Player Game- First to collect 6

2 Player Game- First to collect 9

Level Two - Challenging

Barbie will call out both colors and icons, which will make this level more challenging. Example: "Barbie Says Press blue, then the shoes, then purple, Player Two Go!" In this game Barbie will also call players out randomly. Be on your toes because you never know when Barbie will call on you. Since this is the challenging level, Barbie will: 1.) Call out players in order 2.) Tell you that it is your turn only after her instructions, 3.) Barbie will refer to buttons by either color or fashion icon.

Winning the Game

The first player to collect a certain amount of fashion accessories is the winner.

4 Player Game- First to collect 5

3 Player Game- First to collect 6

2 Player Game- First to collect 9

Game Three - Friendship Game

This fast paced game will challenge your ability to follow what Barbie Says. Before you start, you will need to divide all the fashion accessories so that each player has an even amount. If there are any left over, place them back into the fashion accessory compartment. Once you have pressed the yellow button for the Friendship game and chosen the number of players, Barbie will assign each player a fashion icon. Example: "Player One you are the shoes, Player Two you are the purse, Player Three you are the sunglasses." Barbie will call out her sequence of colors and icons, just like Level 2, but this time each player hits only THEIR button when their color/icon is called. If a player hits their button when Barbie hasn't said "Barbie Says" or if they miss their button or hit it in the wrong order of play, then Barbie will tell that player to put back one of their fashion accessories. NOTE: Remember, in this game you are only pressing the button that Barbie has assigned to you. Also, in a two-player game each player will be assigned TWO fashion icons they will need to be responsible for.

Winning the Game

The winner is the player at the end of the game with fashion accessories left.

Special Note to Moms and Dads

Barbie Says™ knows how many girls are playing and keeps track of their scores so you don't have to. Barbie Says™ also has an extra special catch up feature. If one player is not as fast as the others, Barbie may decide to give that player an extra chance so they can catch up. Barbie may also make the game more challenging for players who are especially speedy. This feature makes sure that players of all abilities can enjoy the game all at the same time.
