- To use the original special effects included with your Creative Effects™ Instant Camera, simply grasp the Creative Effects Cartridge and pull to remove it from the Creative Effects™ Instant Camera.

Care

- Keep the Creative Effects™ Cartridge free from dirt and away from sand and water.
- To keep your Creative Effects pictures looking their best when attaching them to the cardboard picture frames, greeting cards or comics strips, we suggest that you avoid using tape or the enclosed stickers directly on the printed area of your picture. Tape and sticker the edges of your pictures only. Avoid displaying your pictures where they will receive direct sunlight for prolonged periods of time, and keep adhesives such as tape and glue away from the front and back surface of the printed area. Also, certain types of vinyl may cause your pictures to fade.
