Keep these instructions for future reference as they contain important information.

Your doll grows up! She gets curvy!

Method 1

- 1 Turn the knob on the doll's back clockwise. The doll goes from tween to teen!
- 2 Turning the knob counter-clockwise to shorten the doll again.

Method 2

Pulling or pushing on the doll's legs will also grow or shorten the doll.

Doll cannot stand alone

Use icy cold water to change your doll's eye shadow. Warm water changes it back.

To avoid burns do not use water that is too hot, above 120°F.

Color change will last longer if you do not expose this toy to intense heat or direct sunlight for prolonged periods of time.
